Petersweg 1, 24116 Kiel, Tel.: 04 31 – 55 34 00

&

Christian Albrechts Universität zu Kiel R.F.C.

— 22th International „Schietwetter Cup“ —

— 9th Kiel Baltic Masters —

— 2th Jumbo Sevens —

— The tournament will be held on Saturday, June 16th, 2012. —

For the 22th time Kiel Rugby would like to invite our old and new rugby friends to “Schietwetter Cup” 7s and are looking forward to welcome you in Kiel in 2012. Since the mid-eighties teams from all over Germany, Denmark, Holland, France and the United Kingdom have met in Kiel for good rugby and good fun.

For the 9th time, this tournament will also be held as the inaugural “Kiel Baltic Masters”. The most successful team from the Baltic Sea region competing in our tournament will be presented with a trophy and title for winning the “Kiel Baltic Masters”. If you are a university, club or pirate team, and you live within 350 km of the Baltic Sea coast, or in Norway, you are automatically competing for the “Kiel Baltic Masters”. This competition will be held within the “Schietwettercup”. This cup will be launched to bring rugby players from our region closer together to test their skills in the game, and, of course, to have a good time.

This year we are also excited to be able to organise for the second time a completely new competition which will run parallel to the main men’s competition, the **Jumbo Sevens**. All teams with an average weight of 100kg or more per player are entitled to take part in this competition. Play will take place on a reduced size rugby pitch without any possibility of scoring with kicks.

Although we have now three fields at our disposal, we have set a limit for participating teams to 24 for the gentlemen, and 8 for the ladies. The first teams to send in their application and check or bank draft for the entry fee will take part in the tournament. All others will be put on a waiting list in the order that we receive their entries.

For those of you that are new to Kiel, the Kieler Woche is the largest festival held in Northern Europe. For more than 100 years sailors and other athletes have come together to test their skills and join in into what could well be the world’s „longest“ party. There will be approximately 5 km of fair, with more than 1000 beer and food stands, along with several free live music stages.
